Rockville, MD 20852

Dear Jane Henney

We are writing in support of the Center for Food Safety's legal petition demanding mandatory pre-market safety testing, environmental review, and the labeling of all genetically engineered foods.

Both of us are long-time believers in eating organically grown foods, locally (and from our own garden especially) when possible. Our parents and grandparents ate in this way as children and were consequently strong and healthy. We care what we put into our bodies and as citizens of this fair nation, we have a right to know what has been done to our food. Thank you.

Sincerely,

*Sara Ransom*  
*Robert L. Connor*
